

Please join us for our

Open House &

STEAM Celebration!

When: Thursday, May 30, 2019

Where: Cherry Hill School, New Bridge Center, Roosevelt School

Time: 7:00 pm to 8:00 pm

Families are welcome to come visit the classrooms and STEAM labs to see all of the AMAZING projects and explorations that students have been working on throughout the year.

★ Many of the students' projects include video content of them explaining their projects. This content may be viewed via a QR Code. You may have seen a QR (Quick Response) Code while shopping in a grocery store, browsing the internet, or walking down the street of a busy city. QR Codes look similar to barcodes, but they're square, instead of rectangular, and they have lots of pixelated boxes instead of simple vertical lines. If you have a smartphone, you can scan a QR code. Please download the **QRreader App** on your Smart Phone and then begin using it following the steps below.

1. Install the **QRreader App** on your Smart Phone
2. Open the App to the Code Scanner
3. Point back camera at QR Code or Barcode
4. Tap to focus, hold still
5. View the student project

Visit the River Edge
STEAM Website at the
